

Overall Transportation Plan Project Identifier: CS

Roadway Project Location: Leander Rd Bridge @ IH 35

Project Description: New construction of Leander Rd Bridge at IH 35.

Issue Addressed: Reduce Congestion, Improve Flow and Maintain Capacity

With the completion and opening of the I-35 NB FR, traffic patterns will be significantly impacted along the Leander Rd. accessing I-35. This project will improve mobility and access to I-35, maintain east/west capacity and reduce congestion. Proposed project funding will provide construction ready plans for TxDOT and provide local match for future funding of the necessary bridge modifications.

Proposed Roadway: 4 Lane Bridge
Right of Way Acquisition: Yes
Anticipated 2035 Average Daily Traffic: 26,000 Vehicles
Functional Classification: -
Anticipated Start Date: 2025
Anticipated End Date: 2026
